## Are master spas worth the money

When it comes to entry and mid-level hot tubs, Master Spas is one of the best brands around. Master Spas models are perfect for those who want to indulge in all of the benefits that a hot tub has to offer, though still remain within a budget. Master Spas has 25 hot tub models across four different lines. Michael Phelps, the legendary Olympic swimmer, even endorses the Master Spas Legend Series, which is perfect for those who are looking for something a bit more on the athletic side. Master Spas also happens to be one of the largest manufacturers of swim spas around the United States and all of the brand's products are built within the country. Let's dig in a bit more with our Master Spas hot tub reviews to see what Master Spas truly has to offer. Our top picks for master spas Our Top Pick Master Spas Healthy Living Best for ergonomic seating Seven tubs to pick from Master Force Bio-Magnetic Therapy System View Best Price → Master Spas Twilight Best for luxury buyers Nine tubs to pick from Foot reflexology technology View Best Price → Master Spas Legend Series Best for high-performance lovers Eight tubs to choose from Adjustable jet velocity View Best Price → How Much Do Master Spas Cost? It is important to note that Master Spas does not actually list any costs on their website, though you can "shop by price", which essentially gives you a price range of dollar signs that are undefined. This makes it a bit difficult to judge exactly how much you might expect to pay, though it does give you a general idea of the budget Master Spas models vs. the luxury Master Spas models. With that said, there are eight budget-friendly Master Spas models, seven mid-range Master Spas models, six premium Master Spas models, and four luxury Master Spas models. We like the fact that these Master Spas models are separated by budget-friendly and mid-range models, giving those who are on a budget a better choice. Plus, they offer lots of hot tubs in the lower range, making it an excellent choice for budget buyers. Master Spa Prices To get a comprehensive price breakdown for your local area based on your preferences, click the button below: The Master Spas Healthy Living models feature ergonomic seating. The moment you take a seat in these spas, you notice how nice it feels on the outline of your body. This makes it much easier to relax in a natural state. The seats are form-fitting and the way that the jets are placed provides hydrotherapy that is targeted to specific pressure points running from head to toe. The Master Spas Healthy Living Tubs feature reverse molding, which allows for a more comfortable shoulder and neck placement. Beyond that, the Master Spas Healthy Living models have a Master Force Bio-Magnetic Therapy system, which helps to alleviate stiffness and reduce swelling throughout the body. Magnetic therapy has been around for centuries and we're glad to see that Master Spas has implemented a system to provide that for hot tub users. In terms of the lights and sounds, the Master Spas Healthy Living Series comes with dream lighting and an optional Fusion Air sound system for listening to music while you are relaxing. Overall, the Master Spas Healthy Living Series has models that can fit anywhere from two to eight adults at once. They also have seven jet types for pure, hot tub bliss. #2 Master Spas Twilight Series Reviews The Master Spas Twilight Series is probably the most indulgent series in the Master Spas lineup. With exclusive features and state-of-the-art design, it is made to provide users with a spa experience like no other. The Master Spas Twilight Series tubs are built with an ergonomic design that provides comfort from the very moment you sit down. The seats are similar to the Healthy Living Series, in that they complement the contour of your body, which makes it very easy to relax. The Master Spas Twilight Series comes with Master Blaster Foot Therapy, which provides users with a one-of-a-kind foot massage. In all, this helps with foot reflexology, which can be extremely beneficial in a number of ways. The Twilight Series also comes with the same Master Force Bio-Magnetic Therapy System as the Master Spas Healthy Living Series, as well as reverse molding for the neck and shoulders. Beyond the Dream Lighting, Orion Light System, and the Fusion Air Sound System, the Master Spas Twilight Series comes with an optional Afterglow Light Package and a Wi-Fi module. The Afterglow Light Package adds some dramatic lighting to the spa to create a kaleidoscope of lights for your relaxation time. The Wi-Fi module helps to set the mood of the hot tub from your phone or tablet, meaning you can get everything up and running before you even step outside, making it perfect for cold weather environments! The Master Spas Twilight Series has nine different hot tubs to pick from, which can hold anywhere from two to eight adults at once. When it comes to pure performance, the Master Spas Michael Phelps Legend Series is an absolute winner. This Master Spas Series comes with a very long list of top-notch features that makes it one of the most luxurious around. Of course, just like with the Master Spas Healthy Living Series and the Master Spas Twilight Series, you get ergonomic seating. The Master Spas Legend Series also provides users with Master Blaster Foot Therapy and a Master Force Bio-Magnetic Therapy System. One of the exclusive features of the Master Spas Legend Series is the Xtreme Lounger Therapy Seat, which helps to nourish your body and provide it with a powerful, therapeutic massage. It also comes with Orbit Jets that have crystal-like nozzles. This provides the Master Spas Legend Series with a far more refined look. Plus, they even have adjustable velocity, which ranges from 10%-100%. You can easily adjust the power of the jets from one seat to the next! In terms of lights and sounds, the Master Spas Legend Series has all of the Master Spas light and sound features, including the Orion Light System, the Afterglow Light Package, Dream Lighting, The Fusion Air Sound System, and a Wi-Fi module. There are eight different types of jets within the Master Spas Michael Phelps Legend Series for true versatility. Are Master Spas Energy-Efficient? All Master Spas models use high-quality insulation, which has been known to dramatically decrease energy costs. Master Spas uses Icynene foam technology, which works far better than standard urethane foam insulation systems. Icynene is polycyclyene expanding foam, which is also environmentally safe, as it can be sprayed without destroying the ozone. Icynene insulation expands to 100 times its initial volume in just a matter of seconds. This helps to insulate the spa quickly with a large blanket of soft foam insulation that acts as a thermal barrier between the hull and the shell. Your hot tub will stay warm longer and cut down on energy costs overall. What Kind Of Water Management System Do Master Spas Use? Master Spas models use the company's cutting-edge MasterPur Water Management System, which makes use of three different types of hot tub sanitization, including UV-C Light, Ozone, and a copper + zinc combination. These methods are all produced by the EcoPur Charge filtration, which creates hot tub sanitation that is more effective than just about any solution on the market today. Having these three methods at work helps to create better water quality while reducing the number of harsh chemicals within the water. The Master Spas EcoPur charge system works as follows: Ozone - gets absorbed into the water and kills microorganisms and pathogens, as well as organic contaminants. It also oxidizes those contaminants that are non-organic. UV-C Light - Inactivates microorganisms and breaks down chloramines. Copper + Zinc - is a combination that is patented by EcoPur and is used to create an electro-chemical reaction that works to eliminate microorganisms and remove heavy metals, including mercury and lead. Final Verdict - Should You Buy A Spa From Master Spas? We hope our review of the Master Spas hot tub models has helped narrow down your choice. In our opinion, Master Spas is a solid hot tub brand. They manufacture all of their hot tubs here in the United States, which is a good sign, and they offer customers a wide variety of spas to choose from, especially those that are looking for something a bit more budget-friendly. If you are in the market for a tub that is on the budget-friendly side, we highly recommend checking out Master Spas. It is simply one of the best hot tub and swim spa brands around. Make sure to fill out the questionnaire below to save time and money. In doing so, you'll gain access to several hot tub price quotes based on your location and preferences!
